RE: Evaluation for Four-Way Stop Sign Along Froude St.

On Wednesday, February 3rd, the Ocean Beach Planning Board Voted 13-2-0 in favor of evaluating for a four-way stop to be installed along Froude st. at Brighton Ave. and Saratoga Ave.

These two intersection were identified as in need of because of the existing 4-way stop along the other thoroughfare streets in OB e.g. Cable St., Bacon St., and Ebers St. Additionally, our community plan identifies Brighton Ave. as a possible bicycle boulevard.

With the increase in traffic along the aforementioned thoroughfares, more traffic has increased along Froude St. Additionally, there is a .44 mile stretch along Froude St. where there is no stop sign, which encourages speeding.

We hope we can work with our Councilmember's office as well as traffic to make our residential streets safer for all.

Sincerely,

Andrea Schlageter
Chair, Ocean Beach Planning Board
