Action Item 1 New Striping On West Point Loma Boulevard

The Committee discussed the possibility of requesting the city evaluate a road diet and to create a protected bicycle lane and protect the parking spots that the current striping plan would remove.

Motion to recommend to city staff to evaluate for a road diet along West Point Loma Boulevard instead of removing parking and to allow for a creation of a protected bike lane (Nicole Burgess 1st, Andrea Schlageter 2nd)

Action Item 2 Potential Implementation of Traffic Calming measures on the Bicycle Boulevard intersection of Bacon Street and Santa Monica Avenue

The Committee discussed the stretch of road on Bacon Street running from Santa Monica Avenue to Niagra Avenue. The board is concerned with improving the safety of this corridor.

Motion to request the City evaluate the use of temporary bollards to calm traffic to enhance safety at a dangerous intersection on the Bicycle Boulevard at north bound Niagra Avenue and Bacon Street as well as south bound Santa Monica Avenue and Bacon Street (Nicole Burgess 1st, Rick Williams 2nd)
