ENCL: (1) 180118 PCPB Letter Concerning Traffic Mitigations Froude and Voltaire Str

RE: Traffic Mitigation Measures Froude and Voltaire Street

The recent death of a community member, Cameron Loren, in July and several reported traffic incidents in the vicinity of the corner of Voltaire and Froude Street highlight the need for expedited traffic mitigations to be installed. The intersection at Voltaire and Froude has been identified as a dangerous intersection in our community prior to Mr. Loren's death Encl (1) refers.

The Peninsula Community Board would advocate for the installation of a 4 way stop sign and crosswalk at Froude and Voltaire in lieu of the approved flashing beacon and crosswalk to slow cars down traveling North West on Voltaire Street.

Additionally, the PCPB would request the city of San Diego Traffic and Transportation Department to consider adding traffic calming measures, flex posts to narrow the road or convert this intersection into a traffic circle in the future on Voltaire Street.

Thank you for your support and time and consideration on this matter.

Sincerely,

Frederick Kosmo,  
PCPB-Chair
