AGENDA MODIFICATIONS & APPROVAL: TD/GM 3/0/0

MINUTES MODIFICATIONS & APPROVAL: GM/TD 3/0/0

NON-AGENDA PUBLIC COMMENT: None

ACTION ITEMS

Action Item #1: I-8/SC intersection, exit and corridor between I-8 and SC/WPL. Committee will discuss and formulate the plans to do helpful improvements to improve driver decision making and lesson traffic jams between the entry corridor between the last .25 mile of I-8 exit and the intersection of SC/WPL. *See below for concepts presented by TD.*

TD/MH 3/0/0

Motion to modify and update signage and map based on discussion and present at a future committee meeting.

Ocean Beach Planning Board

Transportation Committee Minutes

Date: March 22, 2021

Location: Virtual

Action Item #2: Bike/E-bike amenities.

The Committee will discuss what bike/e-bike amenities could be added to the OB Business District area and beach areas to increase bike ridership and bike security, as well as pinpoint locations for any proposed amenities.

The committee discussed this, but the conversation turned into a discussion about a future code update and this particular action item was sidelined by that discussion.

Nicole brought up an upcoming code change that would allow parking lots to substitute some auto parking for bike parking and suggested we suggest to the Board that we support this code update and that the Board ask the city to properly educate business owners and OBMA of this opportunity once the code update has been approved.

Tracy wanted to get more detailed information and the code language prior to drafting a motion to present the full board.
