**INFO ITEM #1: Request to form a parking district**

Tyler Martin presented his [concept and research](#) for creating a parking district in Ocean Beach. Some questions still pending involve meters, coastal commission, management and funding. Discussion was had as to the OBPB not being able to manage or implement a parking district and that a 501c3 needs to be established to do so. Touched briefly on previous conversations the board/committees have had. A couple of attendees asked about resident permits, parking around the Women's Club for the members and events, managing those who live in vehicles and enforcement of that if a parking district was implemented, and location of meters (most likely only on Voltaire and Newport).

**INFO ITEM #2: Prospective CIP – Intersection of Sunset Cliffs Blvd/Nimitz/Interstate 8**

Tyler Martin presented his [concept and research](#) for changes to the I8 exit corridors. Discussion was had mainly about the I8/Sunset Cliffs exit and flow of traffic into Robb Field. Concerns were location, skateboard park, and the need to reach out to Mission Bay Parks and Recreation for buy-in and approval for the idea as OB does not have purview over Robb Field.
