Ocean Beach Planning Board

4726 Santa Monica Avenue

San Diego, CA 92107

re: Initiation of Bacon Street Placemaking Application

Ocean Beach Planning Board,

The Transportation Committee requests board approval to pursue a placemaking application for a mural at the Bacon Street & West Point Loma Avenue roundabout. The City of San Diego's "mural toolkit" outlines site eligibility standards and a seventeen-step application process. The attached Exhibit A identifies the location (medians & sidewalks) which complies with site requirements. Materials used could be paint, "streetbond", or mosaic tile depending on budget, artist preference, or other determining factors.

Interdepartmental team from the Commission for Arts & Culture and other departments with jurisdiction will review the site and approve the application for further assessment. Board input will be sought throughout the application process, including selection of artist and/or artwork.

Regards,

Tyler Martin

Transportation Committee Chair

Ocean Beach Planning Board
